

AMENDMENTS TO THE SPECIFICATION:

The following paragraph numbers refer to the published application.

Kindly replace paragraph [0006] with the following amended paragraph:

In case when the printer is supplied to OEM (Original Equipment Manufacturers) accounts or exported to a plurality of countries, it is necessary to set up defaults differently depending on each OEM and destination country. Therefore, a plurality of default ~~setup-sean~~ setups can exist for a particular printer model, which affects the work efficiency, and may cause problems such as a mistake of default setup due to human errors.

Kindly replace paragraph [0033] with the following amended paragraph:

FIG. 2 is a block diagram showing the constitution of personal computer 1 according to the present embodiment. As shown in FIG. 2, personal computer 1 contains a CPU 11, a ROM 12, a ~~RMA-13~~ RAM 13, a hard disk 14, a display 15, an input device 16, and a network interface 17, all of which are interconnected by a bus 18 for exchanging signals.

Kindly replace paragraph [0057] with the following amended paragraph:

On the other hand, if the received printing job ~~[[in]]~~ is not related to the default setup print in step S204 (S204: No), printer 2 obtains the image data by expanding the image data part of the printing job according to the normal printing procedure (S209), and prints out the obtained image data (S210), thus completing the default setup printing process.
